Projects

ThriftHub - Personal Finance Tracker Website

August 2023

- Programmed a personal full stack website using MERN stack and FIREBASE for authentication, enabling users to create accounts and login securely.
- Designed and developed the website's frontend and backend architecture.
- Created visualisation of individual income and expense data using CHART JS.

Drexel AI Website - Official Website for Drexel AI Club

July 2023

- Spearheaded the development of Drexel AI's official website to showcase club activities, engage with the community and promote AI-related activities at Drexel's campus.
- Conceptualized, designed and developed the entire Drexel AI's website from scratch using REACT.

Bullet-Hell - Freshman Design Project

May 2023

- Made significant contributions to the game including successfully implementing enemy behaviours for 2 types of enemies using GDscript despite joining the team 3 months late.
- Enhance the gameplay features by adding animation to bullet shooting for 2 enemy types.

Relevant Experiences

Drexel Society of Artificial Intelligence - Event Coordinator

May 2023-Present

- Planned and facilitated in executing 5+ events for the 300+ members of Drexel AI in anticipation of the 2023-2024 season demonstrating coordination, organisational and leadership skills.

IndeSearch - Operation Strategist

April 2022-Present

- Played a pivotal role in planning and strategy, positively influencing 100+ indigenous marginalised students through 2 workshops on effective study habits.
- Exhibited proficient fundraising skills by raising approximately 3000 BDT to support various events.
